PS:

The Putter was the most popular of all our clubs, chosen by all players. Surprise 😊 The Sand Wedge was the least popular chosen by one player only. Wood 7, Wood 6 and Rescue 4 didn't fare much better...

Eight out of 12 players took the Driver as one of their four clubs. Wood 3, 4 or 5 came in as a substitute and seemed to work well for their players. There might be some Drivers up for sale?!

The Iron 7 appealed as being a versatile club, followed by Iron 8 and Iron 9. For someone, the Iron 7 even worked for a bunker shot! The rest probably used their Pitching Wedge for bunker shots. Eight out of 12 players took a PW on the round.
